Blackheads indicate your cleansing method is wrong BLACKHEADS indicate that you are not using the right method of cleansing for your type of skin. A skin specialist would tell you that blackheads are caused by excessive oil collecting dirt in the pores of your skin. To free your skin from this disfiguring trouble, use this simple treatment:

APPLY hot cloths to the face until the skin

is reddened. Then with a rough washeloth work up a heavy lather of Woodbury's Facial Soap and rub it into the pores thoroughly, always with an upward and outward motion.

Rinse with clear, hot water, then with coldthe colder the better. If possible, rub your face for thirty seconds with a piece of ice.

To remove blackheads already formed, substitute a flesh brush for the washcloth. Then protect the fingers with a handkerchief and press out the blackheads.

GET a cake of Woodbury's today and begin this treatment tonight. A 25-cent cake lasts a menth or six weeks.
